"L" type Quotation Folder

Two stiff sheets of PVC foil, welded together along one edge. This simple construction allows quick and easy insertion of the files.

...and you always see what's inside! Transparent front cover of the "L" Folder lets to have a constant insite to the folder. The back side of the "L" Folder may be also transparent or solid color.

Useful with unpunched papers.

Overprint is possible with three print metods, silkscreen, digital or offset.

Polypropylene (PP) Folders

Made of polypropylene (PP) sheets (also known as "priplak"). Both silkscreen and offset printing metods are possible.

Laminated Folders

Made of solid cardboard wraped in different bindery laminates, like paper refined with glossy, matt or structural foil films.

PVC foil Folders

Made of solid cardboard sealed in between two welded sheets of soft and color PVC foil. Colors, overprints, embossind, pockets, ferrule are available.

Cardboard Folders

Made of structural, mass-dyed or white, 300 g/m2 cardboard.

- On dyed cardboard we achieve good looking results using the silkscreen print, emboss or hot stamp with metalic foil metods.
- On white cardboard we print using offset machines. For better protection we can laminate the surface using polypropylene (PP) foil film.

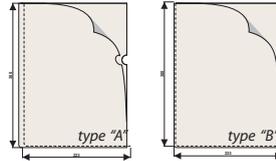

Selective gloss or matt effects we achieve using UV varnishing.

Quotation folders and files presentation stationery

"L" type Transparent Quotation Folder

type "A" - product № LPCV01
type "B" - product № LPCV02

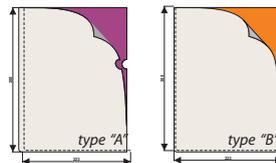

Always visible what is inside.
Useful with unpunched papers.
Overprint possible with silkscreen, digital or offset printing.

"L" type Transparent Quotation Folder with solid color back cover

type "A" - product № LPCV11
type "B" - product № LPCV12

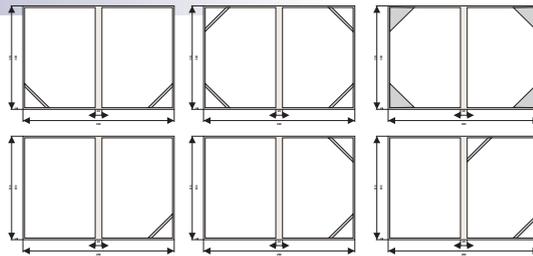

Always visible what is inside.
Useful with unpunched papers. Overprint possible with silkscreen, digital or offset printing.

Laminated Hard Cover

product № 80751
